Census Data for Grant Writing and Community Analysis in Indian Country

Tina Stewart, Partnership Specialist

Source: U.S. Census Bureau, 2010 Census Redistricting Data (Public Law 94-171) Summary File Table P1.
What does the Census Bureau do?

**Decennial Census**
- Every 10 years, Counts Residents

**American Community Survey (ACS)**
- Annual Social, Economic, Housing, and Demographic Data

**Periodical Surveys**
- American Housing Survey (2015)

**Other Surveys and Censuses**
- Current Population Survey (CPS)
- National Crime and Victimization Survey (NCVS)
- Health Interview Survey (HIS)
- Consumer Expenditure Survey (CE)
- Population Estimates
- Economic Census
- Census of Governments

The Census Bureau's mission is to serve as the leading source of quality data about the nation's people and economy.

Tribal Governments

Uses of Census Data

- Identify Tribal population characteristics to plan Tribal services
- Evaluate needs for Tribal employment development and training programs
- Analyze social and economic trends for grant proposals
- Develop housing needs assessments and identify housing program priorities
Components of the Grant Proposal

- Activity Plan and Timeline
- Budget Section
- References
- Needs Statement
- Goals and Objectives
- Project Description

Supportive Data
The Needs Statement – Powerful Component of a Grant Proposal

- Describes the population that will benefit or the target population to be served
- Defines the community problem to be addressed.
- Includes both quantitative & qualitative support materials
- Describes the situation in factual terms
AIAN Data: Race/Ethnicity Concepts
NOTE: Please answer BOTH Question 8 about Hispanic origin and Question 9 about race. For this census, Hispanic origins are not races.

8. Is Person 1 of Hispanic, Latino, or Spanish origin?
   - No, not of Hispanic, Latino, or Spanish origin
   - Yes, Mexican, Mexican Am., Chicano
   - Yes, Puerto Rican
   - Yes, Cuban
   - Yes, another Hispanic, Latino, or Spanish origin — Print origin, for example, Argentinean, Colombian, Dominican, Nicaraguan, Salvadoran, Spaniard, and so on.

9. What is Person 1’s race? Mark x one or more boxes.
   - White
   - Black, African Am., or Negro
   - American Indian or Alaska Native — Print name of enrolled or principal tribe
   - Asian Indian
   - Japanese
   - Native Hawaiian
   - Chinese
   - Korean
   - Guamanian or Chamorro
   - Filipino
   - Vietnamese
   - Samoan
   - Other Asian — Print race, for example, Hmong, Lao, Thai, Pakistani, Cambodian, and so on.
   - Other Pacific Islander — Print race, for example, Fijian, Tongan, and so on.
   - Some other race — Print race.
Race Data Tabulation Concepts

- **Race Alone**
  - Includes people who indicated only one race
  - For example, people who identified as “Asian and no other race” are included in the Asian Alone category

- **Two or More Races**
  - Includes people who reported more than one race
  - 57 combinations of the major race groups

- **Race Alone or in Combination**
  - Represents the maximum number of people who reported as that race group, either alone or in combination with one or more additional race(s)
“Race Alone or in any combination”

- People who reported a single race alone (e.g., Asian) **AND** people who reported that race in combination with one or more of the other major race groups

- Data tabulations are usually referred to as “tallies”

- Represents the maximum number of people who reported as that race group, either alone or in combination with one or more additional race(s)

- The sum of the six individual race “alone-or-in-combination” categories add to **more than the total population** because people who reported more than one race were tallied in each race category

- Applies to detailed race groups, such as American Indian and Alaska Native tribes and detailed Asian and Pacific Islander groups. For example, AIAN alone or in any combination includes people who reported a single response (e.g., Yakima), people who reported Yakima and another Tribal group (e.g., Yakima and Colville), and people who reported Yakima in combination with one or more other non-AIAN race groups

- **Citizenship**
Introduction

According to the 2010 Census, 5.2 million people in the United States identified as American Indian and Alaska Native, either alone or in combination with one or more other races. Out of this total, 2.9 million people identified as American Indian and Alaska Native alone. Almost half of the American Indian and Alaska Native population, or 2.3 million people, reported being American Indian and Alaska Native in combination with one or more other races. The American Indian and Alaska Native in combination population experienced rapid growth, increasing by 39 percent since 2000.

American Community Survey (ACS)
History

1940-2000
• Decennial Census: Short Form & Long Form

2005
• American Community Survey Replaces Decennial Long Form

2010
• Decennial Census: Short Form Only
What is the ACS?

An ongoing monthly survey sent to 3.5 million addresses

- Data collection through four modes: Internet, Mail, Telephone, Personal Visit

Annually produces 1-year and 5-year period datasets:

- Detailed population and housing estimates previously collected on the decennial long form
- Critical information on small areas and small population groups
- Over 11 billion estimates for over 35,000 communities
Differences Between Decennial Census and ACS

Census

- Every 10 Years
- 100 Percent Data
- Official Count

ACS

- Yearly
- Sample Data (3.54 million units per year/295K monthly)
- Estimates (trends/comparisons)
American Community Survey

Demographic
- Age
- Sex
- Race
- Hispanic Origin
- Households Relationship
- Group Quarters

Social
- Households
- Education
- Marital Status
- Fertility
- Grandparent Caregivers
- Veterans
- Disability Status
- Place of Birth
- Citizenship
- Health Insurance
- Language Spoken at Home
- Ancestry/ Tribal Affiliation
- Computer & Internet Use

Housing
- Tenure (Rent/ Own)
- Occupancy
- Structure
- Housing Value
- Taxes & Insurance
- Utilities
- Mortgage/ Monthly Rent

Economic
- Income
- Poverty
- Benefits
- Employment Status
- Occupation
- Industry
- Commuting to Work

Items in red were also collected on the 2010 Census.
## ACS Data Products

American Community Survey

AIAN Custom Data Products

- Two products based on 2006-2010 ACS 5-year estimates
  - Selected Population Tables
    - Available for selected race, Hispanic origin, tribal, and ancestry populations
  - American Indian and Alaska Native (AIAN) Tables
    - With more detailed tribal categories compared to those in the Selected Population Tables
ACS AIAN Tables

Iteration Groups

• The 950 iteration groups include:
  
  ▪ Total population
  
  ▪ AIAN tribal groupings
  
  ▪ Specific American Indian tribes
  
  ▪ Specific Alaska Native villages
ACS AIAN Tables

Population Thresholds: Two Types

- Threshold to be on the iteration list:
  - The Selected Population Tables include groups with at least 7,000 people nationally
  - The American Indian and Alaska Native Tables include tribes with at least 100 people nationally

- Threshold to release a data table:
  - Tables are released for groups on the iteration list for which there were at least 50 members in the survey, in a particular geographic area
ACS AIAN Tables

Availability

- Release planned once every five years
  - First release: 2006 through 2010 ACS 5-year estimates (Released in 2012)

- Availability
  - American FactFinder
  - ACSII Summary Files on the Census Bureau’s FTP server

Stat of the Day

Wholesale

The number of paid workers employed by the nation’s brick, stone, and related construction material merchant wholesalers decreased by 13,827 between 2007 and 2012 (down 32.3%).
Under ‘People & Households’, Click on ‘American Community Survey’
Put Cursor Over ‘Data’ and from the drop-down menu click ‘Data Tables & Tools’
From the menu on left side of page, select ‘Narrative Profiles’
Complete Steps 1, 2 & 3. Click ‘Get Profile’
2011-2015 Narrative Profile

Population and Housing Narrative Profile 2011-2015 American Community Survey 5-Year Estimates

While the ACS produces sample-based population group and housing estimates used in this report, the Census Bureau’s Population Estimates Program produces and disseminates official estimates of the population for the nation, states, counties, cities and towns, as well as estimates of housing units for states and counties. For more information see www.census.gov/popest.

Note that for small geographic areas, the sample used for the Narrative Profile may be small as well. Users are encouraged to examine the detailed tables on American FactFinder that are associated with the Narrative Profile tab. These tables provide additional information on sampling variability associated with the estimates in this report.

Geography: Aguia Caliente

Expand All Sections | Collapse All Sections

Households and Families

In 2011-2015 there were 13,500 households in Aguia Caliente. The average household size was 1.8 people.

Families made up 40 percent of the households in Aguia Caliente. This figure includes both married-couple families (30 percent) and other families (10 percent). Of other families, 3 percent are female householder families with no husband present and own children under 18 years. Nonfamily households made up 60 percent of all households in Aguia Caliente. Most of the nonfamily households were people living alone, but some were composed of people living in households in which no one was related to the householder.

In Aguia Caliente, 10 percent of all households have one or more people under the age of 18; 63 percent of all households have one or more people 65 years and over.

Types of Households in Aguia Caliente in 2011-2015

- Married-couple families: 29.3%
- Other families: 3.0%
- People living alone: 40.4%
- Other multifamily households: 13.9%
- Other single-family households: 13.0%
